HIRSCH HIGH SCHOOL

Dear Mom and Dad,

We know you have often wondered about our "home away from home," Hirsch High School. So this year in our annual we shall try to tell you all about our school life. Beginning with Miss McCahey, our very fine principal, down to the smallest freshie (and believe us, they come small!) To make our letter more interesting, we have enclosed snapshots of the faculty, student body, and of various activities.

Our first enclosure is Hirsch as seen from the outside. We lugged the camera all over before finding a good view. But to us the building is secondary to the picture which cannot be photographed... one that reveals the spirit of Hirsch... memories of our work, our play, and our friends.

To show our appreciation for everything that you have done for us, we have dedicated this Maroon to you. Not only have you provided us with material things, but you have also given us love and understanding at all times. And though we may not always or often acknowledge our gratitude, we want this dedication to express to you our true feelings... that you will always hold the warmest and dearest place in our hearts.

Now come with us while we relate to you the events of a year at Hirsch.

The Hirsch corridors suggest an abundance of feverish activity. Posters line the walls... students pause briefly at their lockers before going to class....

...or perhaps, somewhere, you will find a helpful(?) Senior misdirecting a gullible Freshie.

Miss Marie A. McCahey . . . Principal

There is at every school one person whose knowledge and personality are reflected in every study and activity. Without doubt, that person is our principal, Miss Marie A. McCahey, under whose guidance Hirsch has greatly developed. Through her winning personality, her executive ability, and her clear foresight she has become the epitome of the ideal leader whom all love and respect.

Assistant Principal

June 1, 1948

Dear Parents:

Not too long ago, when your boys and girls were tiny toddlers, you watched them fondly, gave them unselfish love and care from a devoted heart, and spent endless hours dreaming of a good life for them... one in which they could use their talents to their own best welfare and fulfillment.

You have been vigilant in your forethought and direction, because you have always wanted them to be useful, contented people. A man secure in the dignity of work, home and friends.... a woman happy in her choice of life.... These are the goals most to be desired;-- without them money and success are meaningless.

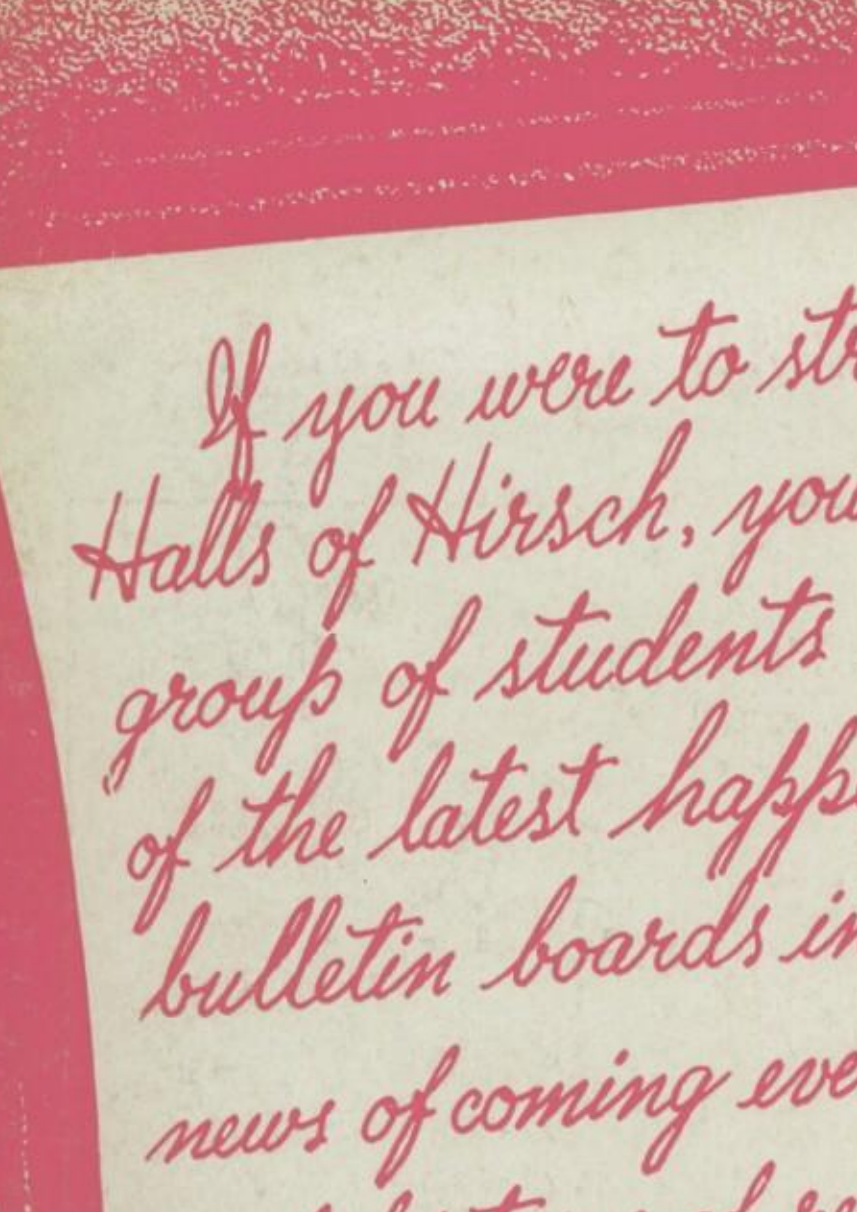
Hirsch has taken your sons and daughters, given them the tools of education, and striven to help them always to pursue a course of action befitting their own integrity and sportsmanship. We shall both be amply repaid if our young people have achieved this understanding..... What more may we ask for them than they be happy, useful citizens in this fair land of ours!

Sincerely,

Marie A. McCahey

Principal

If you were to stroll farther down the Halls of Hirsch, you would meet a large group of students heading for a glimpse of the latest happenings, posted on the bulletin boards in Welcome Hall. Here is found news of coming events, college announcements, and pictures of recent affairs.



After a hasty glance at this all important spot, the students hurry to class. Whether they are going to English or to an exciting experiment in Chemistry, they are sure to have an informative forty minutes under the guidance of our very capable faculty.

You see, Mom and Dad, running a school of the size of Hirsch is no small task. It requires much more than the regular classroom routine.

For instance, our sponsors, together with Miss O'Keefe and Miss Fisher, give wonderful service by guiding, counseling, and advising us on all points from behavior to proper program selection. Mrs. Kelly checks and files our credits; Miss Mechtersheimer organizes student groups whose main purpose is to further school safety; Mr. McNally is in charge of school funds, while Mrs. Jackson is at the helm of our all important Student Council.

This is our

Math Department . . .

Math has always been and will always continue to be a major subject here at Hirsch. Essential Math, Algebra, Geometry, Advanced and College Algebra, Solid Geometry, and Trigonometry may sound like work, but they are the basis of planning our present and future life.

Upper left: **When mathematical minds meet.**
Lower left: **Two heads are better than one.**

. . . *and our*

Social Science Department . . .

An understanding of the world is brought to us by a study of the past. Law, politics, ancestors, living conditions are all history in one form or another. "History repeats itself" is an apt saying, and the study of its repetitions helps to develop a more tolerant feeling towards our fellowman, even if at times the outlook is too dark to penetrate.

THE SCIENCE DEPARTMENT

These are familiar scenes to all Chemistry students.

Remember how long it takes to filter?

A biology class pursuing the mysteries of a microscopic world.

. . . the Department of Science . . .

"Design for Living" takes on added meaning in this department. Down from the cooking room on the third floor comes the tantalizing odor of the taffy apples pictured on the left.

Knowing the correct method of using a sewing machine is indeed an asset these days.

The birth of a dress is heralded by the snipping of scissors.

and our Home Economics Department

This is our Technical Department . . .

Here is the home of future tradesmen, architects, and engineers of various fields.

In woodshop, the art of the carpenter is developed, from the first simple steps of designing and planning, to the finished product.

The print shop affords practical training for boys interested in this trade.

Our machine shop, with its latest equipment, is an incentive to any boy interested in this subject.

. . . and here we learn
Shorthand and Typing

Our fine commercial department produces the typists and comptometer operators of tomorrow.

Even the boys are interested in learning to type properly, as you can see by the interested male spectator.

"Hunt and peck" typists? Not at Hirsch. After two semesters of "pounding" the keys, these students are experts in this field.

This is the Department of Fine Arts . . .

We at Hirsch are proud of our fine music department. Besides the regular classes, the students may participate in the several choral groups, the band or orchestra.

Art classes at Hirsch have always been among the best in the city. Here, students study every phase of art from elements of color to painting with oils.

From limp masses of clay, these art students produce well proportioned, artistic figures.

. . . and the Department of Physical Education

Strong bodies as well as keen minds are important factors in building good citizens. Here at Hirsch, the students participate in competitive sports such as football and basketball as well as their regular "gym" routine.

Some of our brightest students at Hirsch have their headquarters in Room 315, where, mid specially printed books and the latest thing in correct lighting, they do their best work.

These boys and girls are interested in a study of the eye, because, through knowledge of it, they learn how to conserve the strength of their own precious sense of sight.

This is our Sight-Saving Department

The fact that our Juniors and Underclassmen comprise three-quarters of the enrollment at Hirsch makes them most important. One main point they have in common with the upper quarter, however, is the common goal toward which all are striving -- that High School Diploma.

Freshmen, Sophomores, and sometimes even Juniors are easily distinguished from the proud and scholarly Seniors by certain characteristics, such as clock watching and an eagerness to get to lunch. (Yet, who is more eager than a hungry Senior?) Some of them even have their own illustrated supplements to their textbooks.

But besides being industrious workers, these boys and girls have good times, from their Freshie Frolic to their unforgettable Junior Prom. Soon each group in turn will add to its memories its own Senior Prom and graduation.

3A OFFICERS

Gayle Quance, *vice-president;* Gretchen Sautter, *secretary:* Roger Ytterberg, *president;* Tom McBride, *treasurer.*

These are the Juniors . . . the Lower . . . Upper Classmen

Bubbling over with enthusiasm, the Juniors at Hirsch are well represented in the student government, on the sports field, and in all other school activities. Everything they undertake has been successful due to the capable leadership of their officers.

THE JUNIOR PROM

One of the most important events at Hirsch is the Junior Prom. It is given semi-annually in the Hirsch gym—a gym transposed into a magic fairyland by the artistic hands of the Junior Class. Under the direction of their sponsor, Miss Lawrenz, the December Prom (pictured above) was a gala success.

And Mom and Dad, these are the

Our very newest additions—The Freshies

"The Glory of Light cannot exist without the Shadows."

Dr. George William Gerwig

Midst the hustle and bustle of life, comes that great pause . . . . the hush of death, when eternal quiet sets in for some good friend. That long rest has begun for Frances C. Zurawski and Hortense Klein.

These friends, colleagues and teachers, will be missed and remembered for their qualities of kindliness and understanding and their gift for friendship.

We salute and bid farewell to them . . . . true friends and conscientious teachers.

Marie A. McCahey, Principal

It takes a variety of activities to create a school life which we will always remember as being not only enjoyable but also beneficial, both to the individual and the school.

To listen to our choirs sing and our band play, or to watch our R.O.T.C. drill always affords us a proud moment. Many organizations perform services to the school itself; others develop personal talents, while still others recognize scholarship, character, and service as a basis for their coveted memberships. All, however, develop the individual students -- some to lead, some to follow, but all to see value in cooperation and service.

It sounds rather "stuffy", doesn't it? But it isn't, as you can witness for yourselves by the opposite picture our sedate Student Council "cutting a rug" in one of its lighter moments before getting down to its more serious business.

So you see, Mom and Dad, it takes more than books to make a school.

The Student Council . . . what

With a "do or die" spirit, our capable Student Council has a hand in most of the school activities. Through their remarkable efforts, the council arranges many memorable assemblies, supervises the Hirsch charities at Thanksgiving and Christmas, and organizes the clever Club de Maroon.

Under the protecting wing of Mrs. Jackson, our Student Council is truly extraordinary.

"Court is now in session," and just punishment is meted out to all law-breakers at Hirsch.

The Code of Regulations informs all students of rules that should be followed in the lunchroom, halls, and during fire drills. Everyone at Hirsch is happier and respects his classmates' rights because the Student Court, ably supervised by Miss Jeffers, enforces the Code.

. . . and our Safety Engineers

Mom and Dad, you aren't the only ones who are always warning us to "be careful". At Hirsch, safety is considered so important that a special branch of the Student Council, the Safety Engineers, was organized. Miss Sue Mechtersheimer, its capable sponsor, directs them in bringing to and keeping before the students' minds, the necessity of carefulness at all times — in and out of school.

May we introduce our National Honor Society

Perhaps you know some of them already. They are the fellows and girls who make high grades, participate in school activities, but yet are "in the know" on the latest records, fashions, and fun. The emblem pictured below symbolizes the qualities necessary for admittance—character, scholarship, leadership and service. In the middle is the flaming torch of learning which will light the way of these young people in the future. Miss S. Fisher, their sponsor, adviser, and guide, thinks this group is "tops." And they are!

and our Junior Honor Society

We all worked hard to be admitted to this organization, and when we did get in, Miss Manz, the sponsor, made it imperative that we maintain the standard three E's and an S. But it is a goal for which all of the lower classmen strive, as it is a stepping stone to the National Honor Society.

Have you heard . . .

If you haven't heard them, a treat is in store for you. One hundred and twenty-five voices soar thrillingly, while one hundred and twenty-five anxious faces watch the motions of the figure in front of them,—their beloved leader, Mrs. Helena Kane, under whose expert directorship their name has become city-famous.

Who can forget the night when they sang at the Palmer House Banquet in honor of our new Superintendent, Dr. Herald Hunt? Or did you hear them on Fathers' Night when Hirsch had Open House for its parents? Perhaps you heard their Christmas Carols in Hirsch or at various community centers or churches.

Two things never vary—their rich quality of tone and their high standards of musical selections. Thank you, Mrs. Kane and Choristers, for giving so much pleasure to so many.

This is the Senior Girls' Glee Club . . .

In the Senior Glee Club, the girls sing, not only for the pleasure of their audiences, but also for their own enjoyment. Mrs. Nicklaus, their sponsor, provides them with songs that we, their classmates, enjoy hearing as well as they enjoy singing. Along with their song-sisters in the Junior Glee, they have sung at many school and local affairs.

Despite worries of making deadlines, correcting identifications, and finding good pictures for layouts, we have had a lot of fun writing this book, and we sincerely hope you will find similar enjoyment as you leaf through its pages.

It's the Gold "H"—

inside and out

Who carefully weeds and plants our school lawn? Who looks after its landscaping, giving hours of backbreaking service to its beautification? They do—the Gold "H"! But their work isn't limited to the outdoors only. They are continuing their Hirsch improvement program in another long term project —the refurnishing of our Social Room. To Miss Mechtersheimer and her organization, we say "Congratulations"!

We know you have been wondering about the posters seen in the halls of Hirsch. These are done by one of our busiest organizations, the Poster Club.

Mrs. Parker, its sponsor, will tell you that the main purposes of the club are to give the students experience in various types of commercial art, to acquaint them with the necessities of meeting time limits and working together, and to publicize all school activities. Their results speak for themselves!

These are our future leaders . . .

R.O.T.C.

And this, Dad, we are proud to say, is our R.O.T.C. unit. Having been an honor school for the last eleven years, we have accomplished much towards developing good citizens and leaders who will be a credit to our communities.

Most of our time is taken up with rifle marksmanship, first aid, map reading, and courtesies and customs of the service, in addition to our constant drill and military duties.

Our shining stars are the Drum and Bugle Corps, Picked Platoon, Rifle Team, Color Guard and most important of all, the individual cadet.

Under our very capable commanders, Master Sgt. Alexander, and our newly acquired Staff Sgt. Burns, we are working to hit that honor rating once again.

. . . and defenders . . . our R.O.T.C.

Up-to-date Equipment for an Up-to-date Outfit

After peace was declared, our R.O.T.C. unit received extensive military equipment used during the war. We have the same type of apparatus our soldiers used over seas, and our training is as up-to-date as our equipment.

Detailed instruction on small arms makes experts in this field.

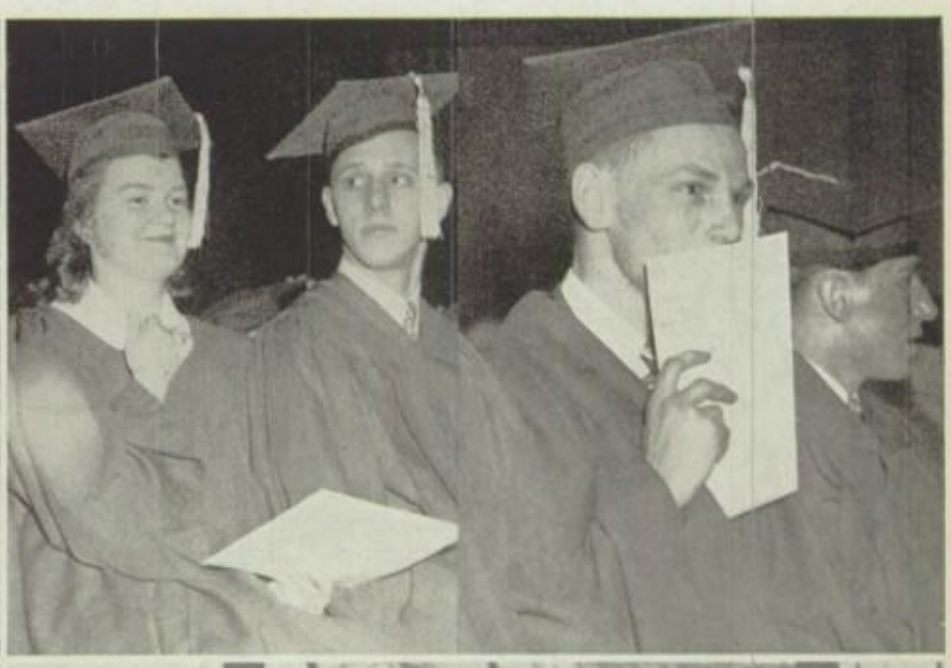
REMEMBER?

Were we proud the night our Choral Club entertained at the Principals' Banquet in honor of Doctor Hunt, our new superintendent! They brought new laurels to Hirsch.

Highlights of the Year

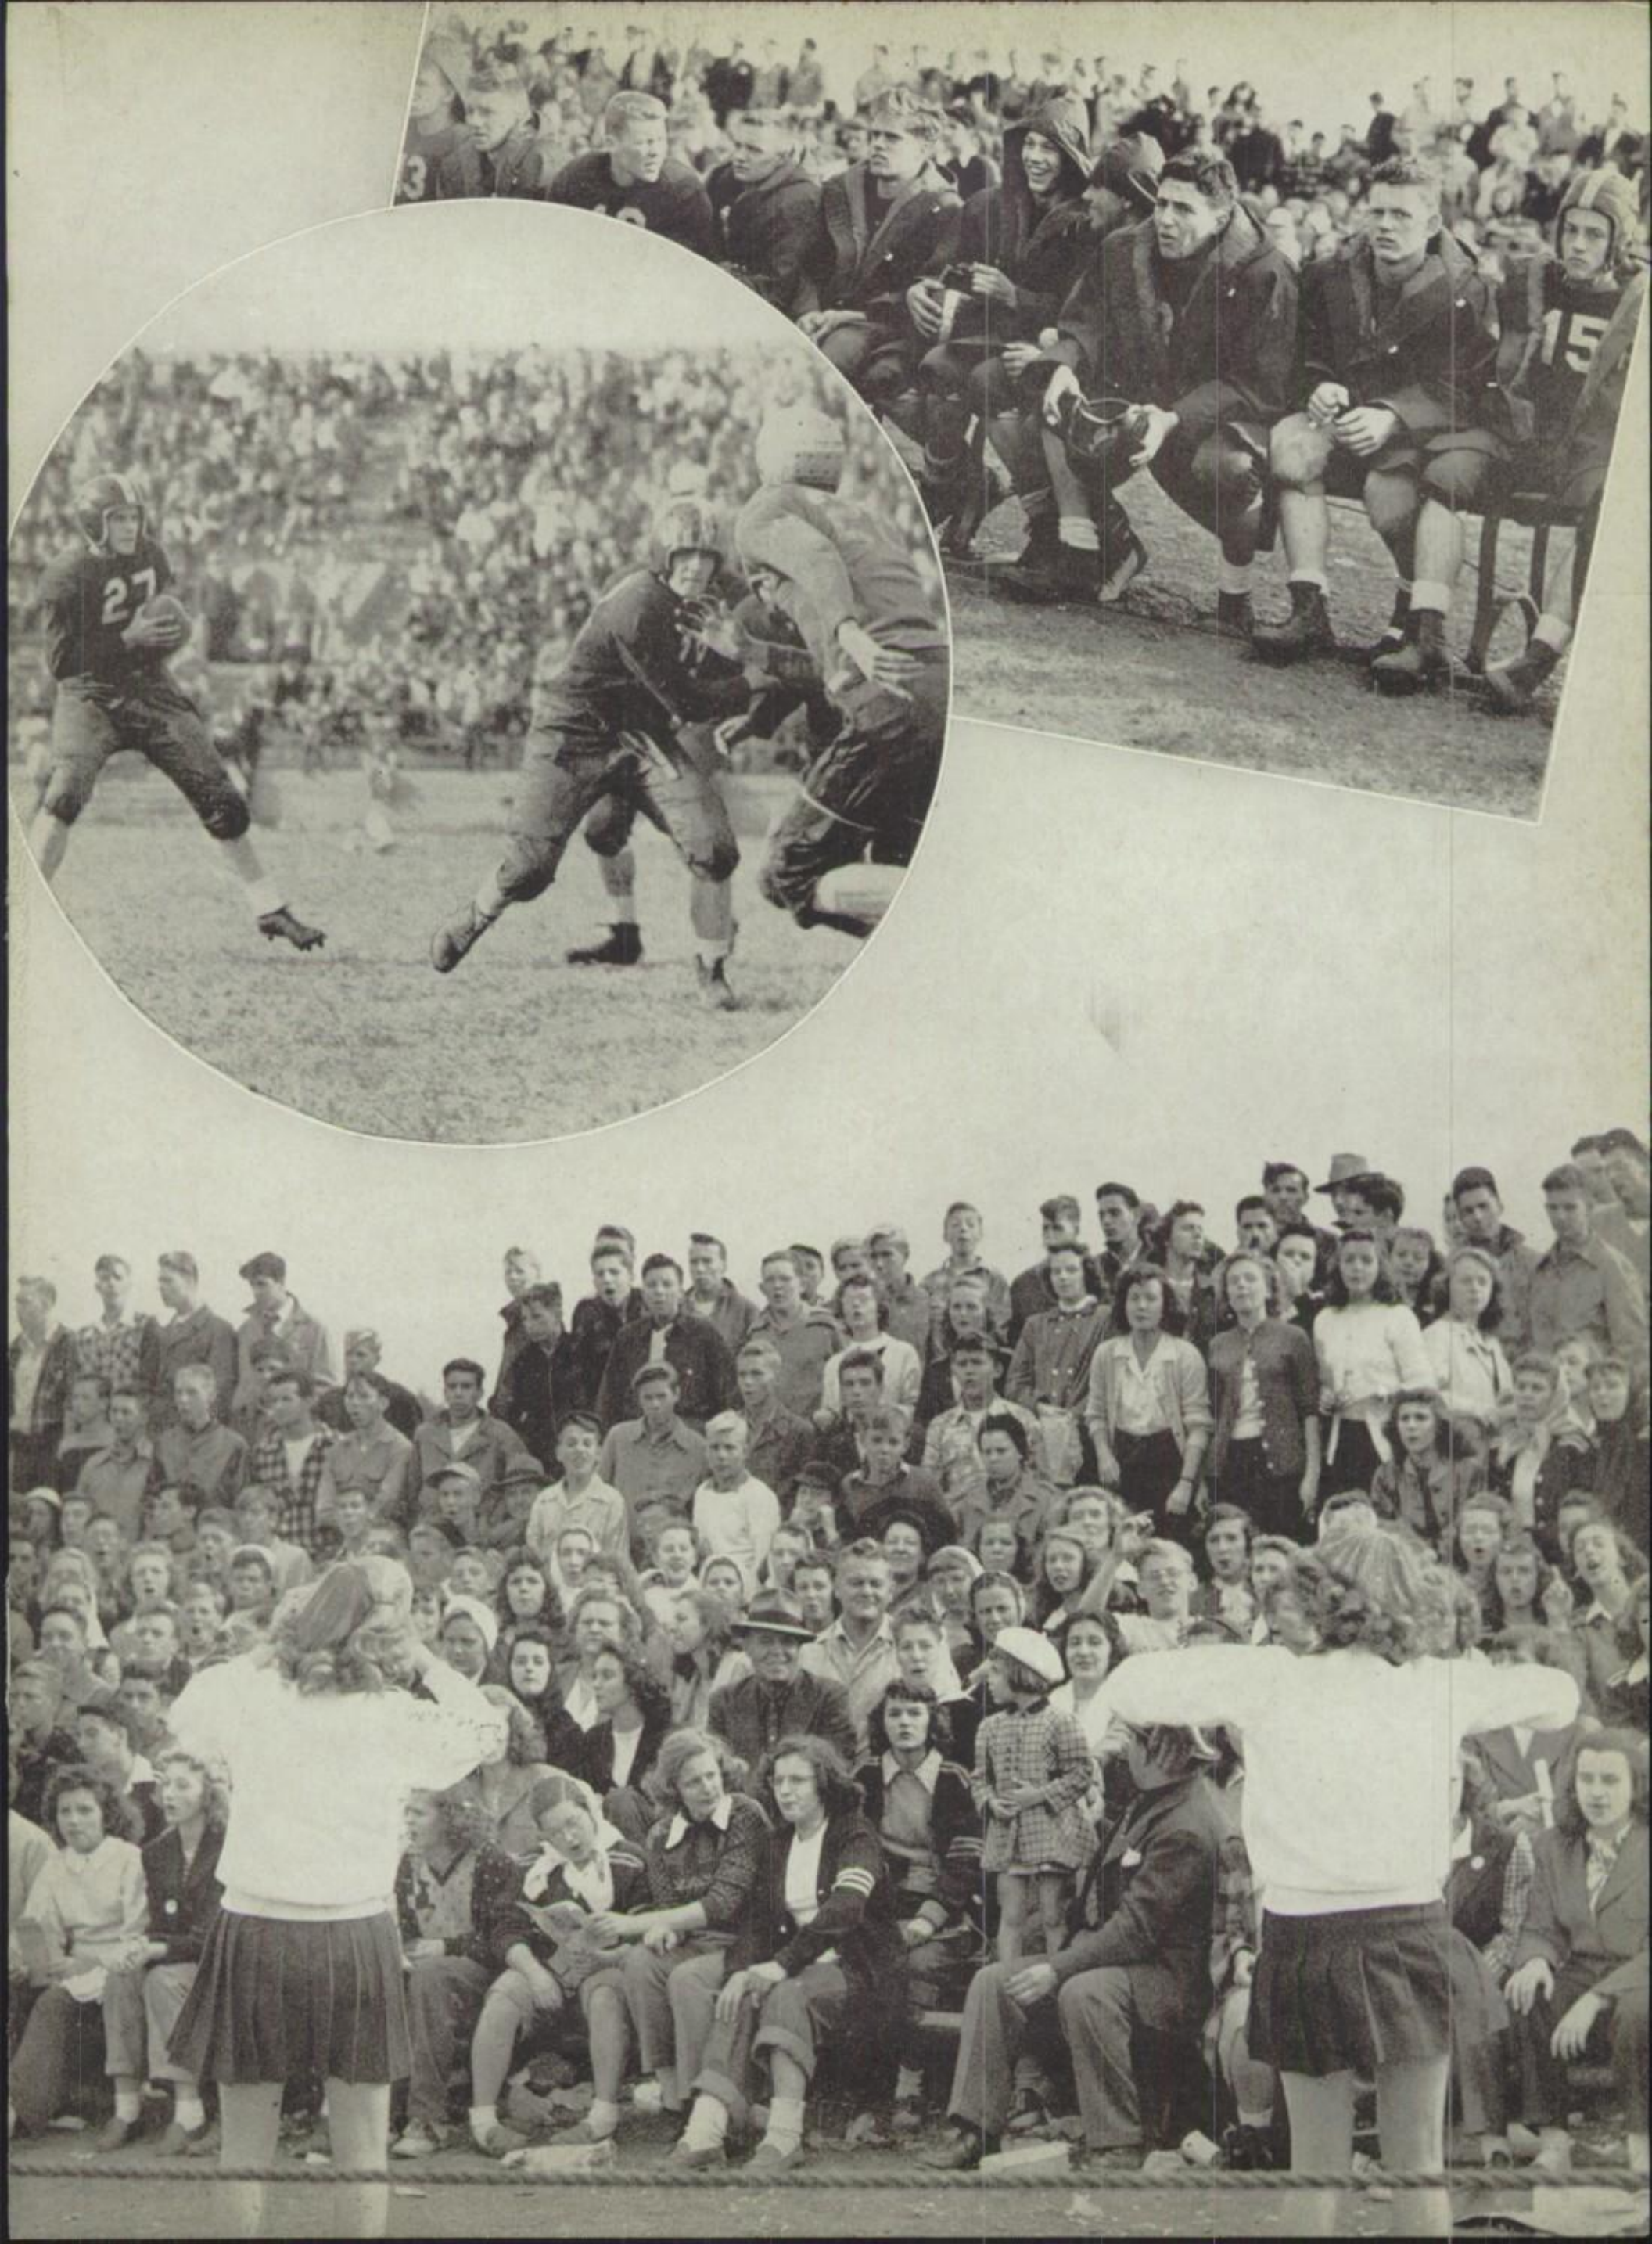
Upper left: Did you have a good time at the Football Banquet, Dad? *Lower left:* lining up for the Grand March at the January Senior Prom. *Upper right:* Scenes from the January graduation. *Lower right:* Hirsch's Student Council shows Christmas good will by delivering baskets to the needy. Orchids to Jeanne Hammond for her splendid work in this and her many other worthwhile activities.



Folks, remember when you were out cheering for "Ole Central High"? No matter what the event, you were out there giving your "all" which may have resulted in laryngitis that kept you from giving your oral report the next day. (Tsk, tsk!) Win or lose, they were your team!

We feel the same way. Whether spectators or participants, we derive numerous benefits from athletics. Besides our physical development, we also grasp the meaning of sportsmanship, of fellowship, and of fair play -- important phases in mental growth.

Dad, you recall the tough training seasons for football, basketball, and swimming. But remember the thrill when you made a touch down or placed first in a swim race? And Mom, remember how you huffed and puffed in the gym or pool when you fought for the glory of your team? This spirit is also the traditional spirit of Hirsch!



These are our Gridiron Stars for whom we cheered . . .

Our team did exceptionally well this season. Although we lost our first practice game to Taft, we shut out Hyde Park, 13-0, in a game played mostly on the ground. Our first league game was lost to Bowen, but we rallied the next week to win against Parker, 18-13. In the Calumet game, Hirsch won, 13-6. Fenger, our next opponent, won the decision in a rough but clean game. And although C.V.S. won by only one point, 13-12, they forfeited to us because of an unqualified player. In our last game, we came through with flying colors by outplaying Morgan Park, 27-0. Much of our good luck was due to Bill Hempel, who was voted the team's most valuable player.

The main cog in our wheel of success, however, was our coach, Mr. B. O'Brien, under whose skillful coaching the team finished third in the South Section.

Our Basketball teams— heroes on the hardwood . . .

SWISH! There goes another basket as Hirsch's basketeers ring up additional points. Our high flying, triple threat teams, both Junior and Senior, had everything for which any team could wish: fast passing, snappy dribbling, and plenty of accurate shooting.

Under Mr. Mabbott's expert coaching, they have shown the fine sportsmanship and teamwork that is true of all Hirsch's great teams. He may well be proud of his "crafty cagers".

SWIMMING

Hirsch's "mermen" are divided into two teams—the Seniors, consisting of boys over sixteen, and the Juniors, for those under sixteen. Coach Paterson has just reason to be proud of both groups, for each is outstanding in its own right.

On the Senior team, special mention is in order for Dick McClow and Fred Wolpe. Dick has won practically every meet he has entered, besides being high point man, while Fred placed second in the City Championship, Junior Division. The Juniors also deserve honors for their excellent showing in the City League. Jim Boyd rates as high point man here, with Bill Hoover following very closely. Congratulations, Coach Paterson!

"Play ball!"—just watch us

BASEBALL

As this book goes to press, our hopes are high for our baseball team winning every game this season. From what we see of their spring practice, we feel confident that they will prove keen competition to any rival team.

The lettermen returning to the diamond this year are: Mischo, Brunnel, Hughes, Montalbano, Owens, and Provenzano. Coach Mabbott has every reason to expect a super season with his super team.

Upper left: Coach Mabbott gives last minute instructions.

Upper right: Whoops! Too late!

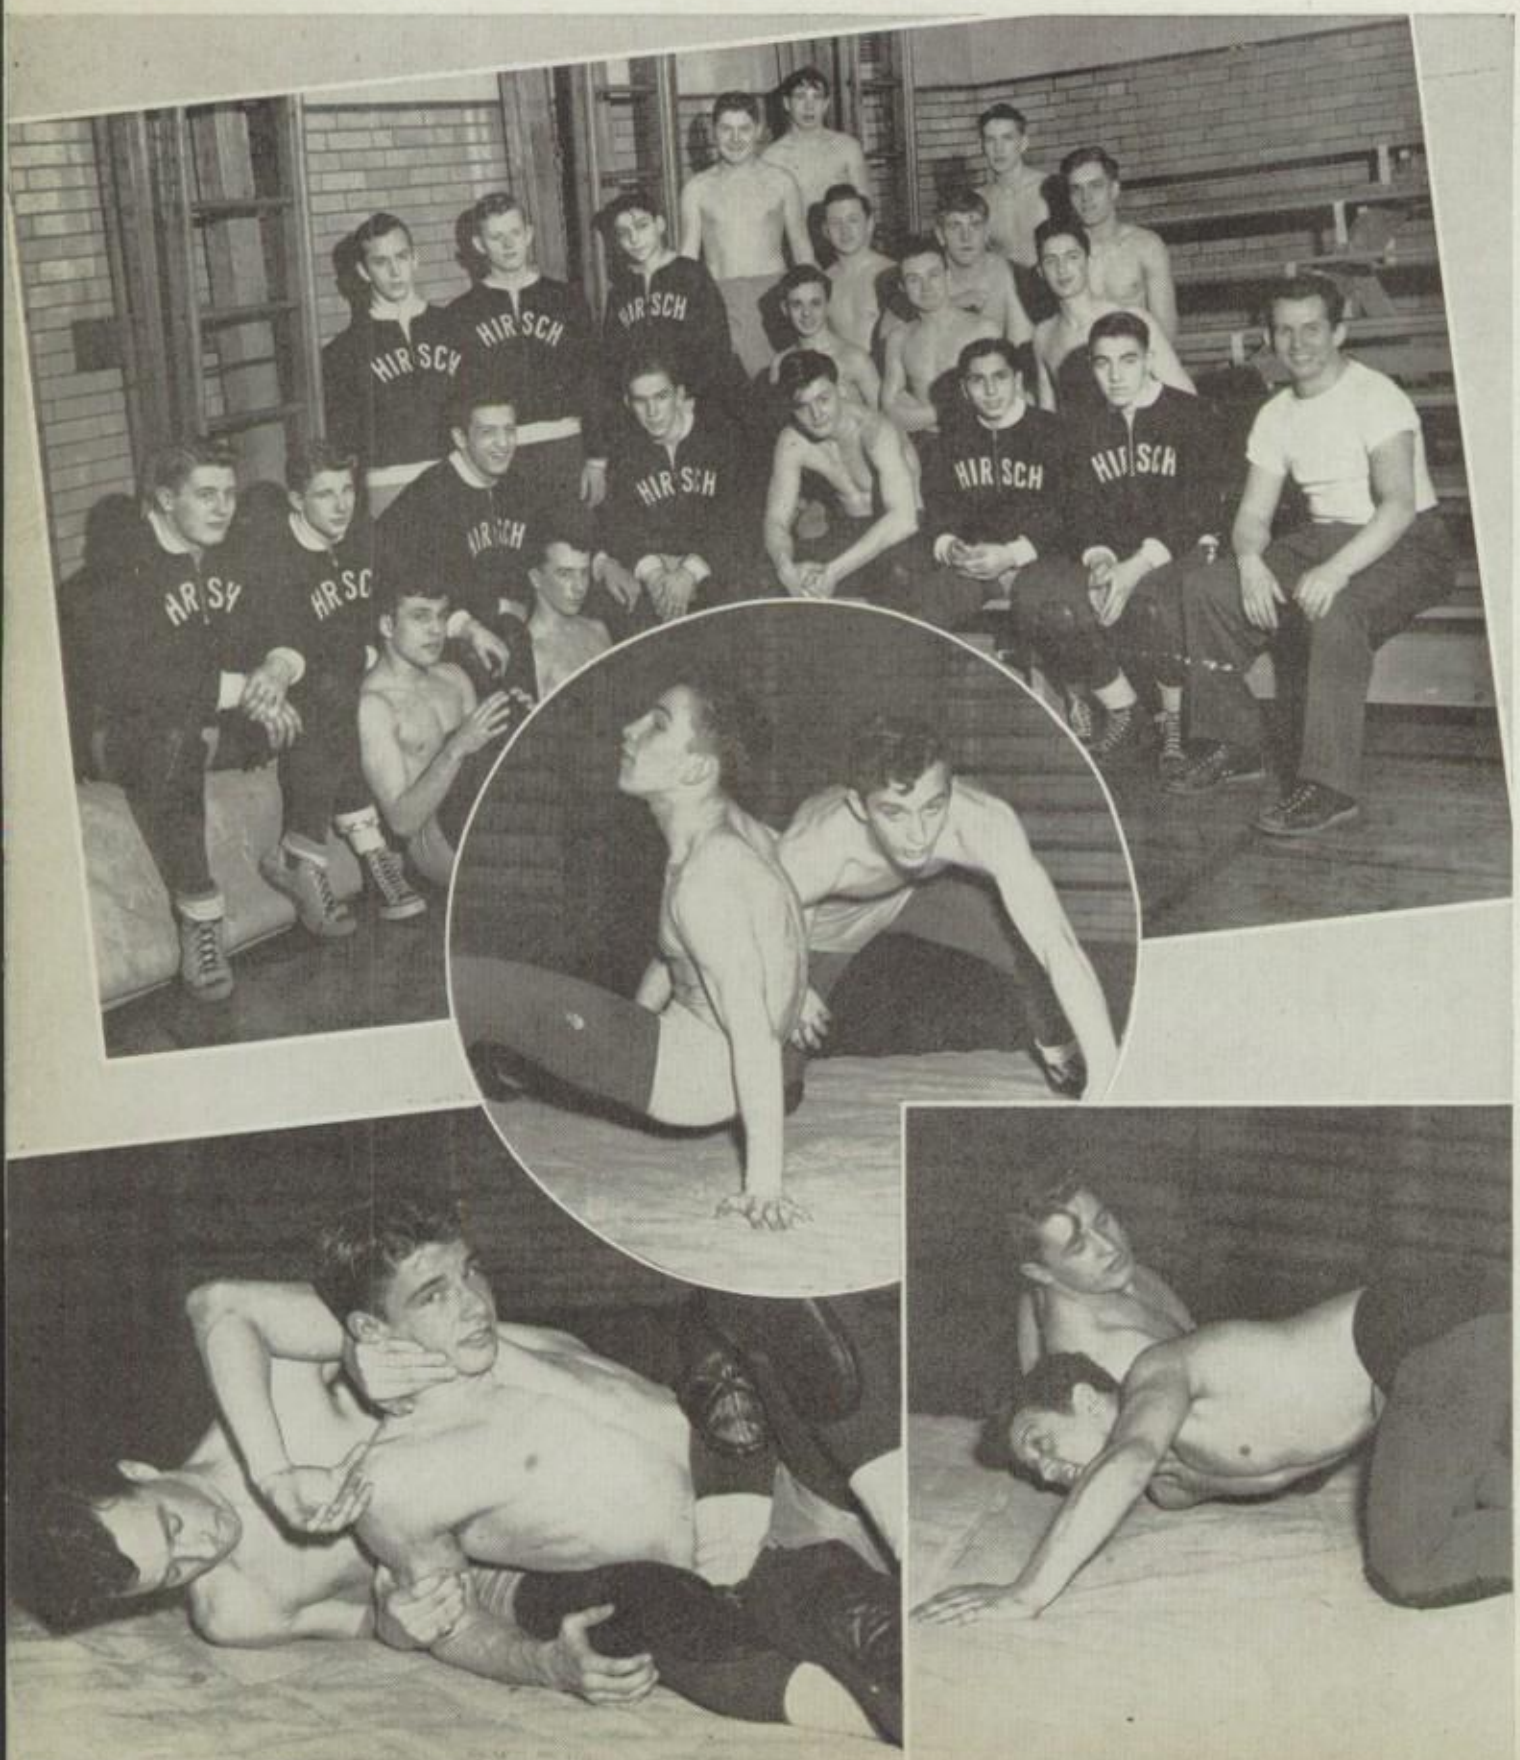
Lower right: Batter up!

This is our Wrestling Team— they really "went to town"

These boys really "went to town" this season. Top honors in individual wrestling go to Phil Bruno, 175 lb. city champ, to Jack Stoudt who placed second in the 128 lb. class, to Bill Parker and Tom Boyd who placed third in their respective weights, and to Dick Johnson who placed fourth in the 145 lb. weight. Because of an appendectomy, Bob Whelan, one of our most outstanding players, ended his undefeated season after the Calumet match. Mr. O'Brien's superb coaching certainly deserves top billing; the results speak for themselves.



WRESTLING

Row 1: B. Villenueve, B. Whelan, A. Swanson. *Row 2:* B. Parker, J. Stoudt, P. Bruno, T. Boyd, F. Pantano, D. Johnson, C. Black. *Row 3:* R. Ytterberg, B. Posen, D. Norton, E. Goldbloom, B. Lewis. *Row 4:* B. Kalthoff, A. Hopkins, D. Haffner, T. Iversen. *Row 5:* G. Erickson, K. Bell.

Darragh, K. Kelly.

Yea — H-I-R-S-C-H!

CHEERLEADERS

These bright, vivacious "fellas and gals", who seem to throw themselves out of joint for our Alma Mater, have achieved city wide fame for their inspiring efforts. Orchids to Mrs. Roth, their sponsor!

LETTERMEN

The lettermen, a brawny organization consisting of Hirsch's "loyal sons of battle," are admired by all for their ever outstanding "will to win". Mr. O'Brien is justly proud of his Olympians.

The Girls' Athletic Association— Champions of Clean Sport . . .

"WHERE WERE YOU?"

"Why weren't you home at three thirty?" How many times have you said that, Mom, when we rushed home at five or five thirty? Well, now I think you'll understand.

Every Wednesday, the G.A.A. meets and all have loads of fun in competitive sports. These activities, along with teas and roller parties, are arranged by the officers and board, who, under Mrs. Bartlett's sponsorship, see that the girls have constructive as well as enjoyable meetings.

G.A A. BASKETBALL

When the whistle blows, clear the floor, for these whirling marvels shoot high and wide. The ball rockets through the air, tips, hovers on the edge, and falls through the basket. Whew! Didn't think they'd make it.

Whenever Mrs. Bartlett's sharp shooters get together, one can expect an unusually fast game, full of thrills, swift thinking and good sportsmanship.

The Aquatic Aces—

They splash a fancy figure

—And we know you agree with us, Mom, especially since you've seen the beautiful water ballet that Mrs. Tharp and her Aquatic Aces presented on Fathers' Night.

Acknowledgment—

We wish to express our gratitude to our advertisers and friends, without whose interest, encouragement and help, our ambitions for this—the 1948 *Maroon*—could not have been realized.

Much credit is due to:

MR. NORMAN KOENIG of Pontiac Engraving Company for his layouts and designs.

MR. EMIL FEURSTEIN and MR. SAM DECKER of Gibson Studios for their excellent photography.

MR. RAY LANGEN of Excella Press, who handled the production of the book.
